

SYDNEY'S REPORT

TECHNOLOGY

The things that I do well in technology is demonstrating my skills and using the computer. What that means is that I follow directions properly and learn how to type on the keyboard and use my time wisely. In technology we do a lot of activities for instance this game called Type To Learn which helps you in using your fingers in the proper ways while typing in the computer lab.

READING

In reading I read fluently with expression which means that when I read I give my voice a little cartoonish sound to make it more fun to listen to. Another thing that I do well in reading is that I read fluently and independently which means that I can read by myself and fluently means that I can read without making a mistake.

ART

The things in art that it says that I need to do better are making creative choices . What that means is to use your own mind without copying peoples pictures. In lesson guidelines to communicate meaning which means that I need to write on the back of my papers and give my sentences more details. This means that I need to learn how to make longer parragraphs so that he can understand what I mean instead of writing a one word sentence like I tried and be more explanatory for him. The other thing that I need to work on in art is developing skill with a variety of materials which means I need to use the materials so that they are nice and clear to see and not break his materials and respect the properties while I use them in his class. The last thing that I need to work on in art is applying knowledge of the elements and organizing principles of art which means that you need to understand the history of art and why artists use different kinds of materials.

PHYSICAL EDUCATION

The things I need to work on are under standing and achieving health and maintaining a healthy level of fitness. Which means when I run I need to be listening carefully on running and less focused on talking to my friends and study more physical education so that I can be healthy and fit to do stuff. The things that I agree with in the report card are that I need to be more active and healthy in gym at school and at home. I need to run with my dog Robbie and have more vegetables and fruit for snack and desert.

MUSIC

The thing in music that I need to work on is reading and notating songs and patterns which means that you understand the notes that you read and that you can read them without needing any help. But mostly focusing on each individual note and sign that she points at.

The note that my teacher wrote to me that I needed to work on said "Sydney needs to work on using a soft voice in class, and patiently waiting to get her needs met". She also says that I am a strong reader but I need to slow down on my test I totally agree because if I don't my test scores are going to keep dropping. And I totally agree with the note that she wrote for me.

DISAGREE WITH

The things that I don't agree with are that I got all threes in science class even though I don't know a lot about science but I do pay attention to the lesson that I learned. The other thing that I don't agree with is that in writing I got all threes when I should have gotten a four because in my point of view I think that I am really good at writing descriptive sentences and thinking about what I write in my head before I write it down on a piece of paper. The last thing that I think I should have gotten a good score on is acquiring singing skills because I have sung all my life and I practice a lot and sing along to the radio and am in choir. Those are the things that should have been different.

STEPS

The first step I am going to take is trying harder not to talk in class and return and get in all my homework on time. The second thing I need to work on is not talking back to my teacher and other teachers or I can get in big trouble. The third thing I need to work on is listening to the directions so that the people don't have to keep telling them over and over again and getting ticked off at me for asking the directions again after they just explained them for the first time. My fourth step for doing better in school is being respectful to people like I would want to be treated and like I would want to be known as a respectful kid and human being.

DOESN'T HAVE

Some things that my report card was missing is a note that said the things that she thinks I am good at rather than the things I need to work at.

Another thing that I think is important for them to add in my report card is this years one minute reading test.

The other thing that was important they missed was my reading level from last year so then I can compare the two with my new report card and see how much I think I improved over the summer and school year.

The symbols on my report card such as an x means consistently observed. A slash means observed with reminder. A _ means seldom observed and the star type thing means individual education plan. The # means that you indicate conference and or home contact. Showing respect for others I got a slash which means that I need to have some reminders when I start getting pushy and bossy. Same with all the other stuff as in following the class room and school rules I got a slash for needing reminders.

THIS IS MY REPORT
BY: SYDNEY MACGREGOR

Project Description:

Write a report about your school report card.

Directions:

1. Read your report card very carefully (including the "X's" and "/"s" not just the numbers, as well as the written comments).
2. Write down, in your own words, the main things that it says you did well.
3. Write down, in your own words, the main things that it says you need to do better.
4. Write a couple of paragraphs explaining what you agree with in the report card, and why.
5. Write a couple of paragraphs explaining what you don't agree with and why.
6. Write a couple of paragraphs describing the steps you're going to take to do better on the things that you need to improve.
7. Make sure to include anything important you think they missed or left out in your report card.
8. Your report must be at least 3 pages long, single spaced, hand-written on lined notebook paper.
9. The due date is by the end of next weekend (February 20th).

Reward:

I'll give you a grade and deposit money into your savings account at the end of February, based upon the following table:

Grade:	Reward:
A -----	\$25 (excellent work)
B -----	\$15 (above average work)
C -----	\$5 (average work)
D -----	\$0 (below average work and you have to fix it the following week)
F -----	-\$5 (unacceptable work and you have to start over and rewrite it the following week)

There are allout of famous people in
peerto Rico and allout of regular people in
town. There are allout of people who swim there
and stay at hotels for the month swimming is
famous in peerto Rico everybody swims in peerto
Rico even parents. There are allout of animals
who are homeless. There are allout of actors
and stars and people who are very very famous
and very ritch. There are allout of food people
and electioned stores that people go in too. There
are birds called bluefoot boobies. In peerto Rico
there are allout of horse racing. Here there are allout
of ship animals and everything. In peerto
Rico people like us play allout of Baseball
and sports. peerto Rico has allout of houseses that
and people who are rich or are poor that
don't have any place to sleep or only more
to do. Some people are famous there like the
guy who made Sesame street and the violinist
who are fealy good at playing an instrument.
Some people play in movies like peter
pan or any other more the point is
that there are allout of famovise stuff
there.

There are about of schools in puerto rico
The weather there is very warm and hot
There are about of sports in puerto rico
There was a 118 pound boxer who was
born close to Mexico. There are about of
green grass and about of lakes. There
are rainfalls and other water stuff.
There are millions of palm trees around
the side of the ocean. They have
houses that are made of wood and
straw. There are jelly fish and sea turtles
that swim in the ocean. The fire house
has an american flag around it.
